

Combined Heat and Power Emergency Enhancements

University Health Systems San Antonio, TX 78229

Funding would enhance emergency power for Combined Heat and Power Plant system for University Health System, Veterans Administration, and University of Texas Health Science Center.

Amount requested: \$1,000,000

Dimmit County Emergency Operations Center

Dimmit County, TX 105 N. 5th Street, Carrizo Springs, TX 78834

The Dimmit County Emergency Operations Center will serve the constituents of Dimmit County with emergency management and preparedness capabilities. The construction Phase

will create approximately 30 temporary construction jobs to offset the high unemployment rate in the area and retain 20 jobs in the field of law enforcement.

Amount requested: \$1,000,000

State and Local Cyber Security Training

The University of Texas at San Antonio One UTSA Circle San Antonio, TX 78249

To continue providing state and local training against cyber attacks as part of DHS's Community Cyber Security Maturity Model. Amount requested: \$4,035,032

Trans-boundary Risk Identification and Mitigation Systems (TRIMS)

Rio Grande Institute 1717 West 6th Suite 410 Austin, TX 78703

The funding would address the pressing need to examine transboundary risks by identifying, preparing for and mitigating against natural disasters and catastrophic accidents. Amount requested: \$776,000

Uvalde Emergency Operations Center

Uvalde County, Texas 100 N. Getty Street, Suite #3, Uvalde, TX 78801

This project will serve and benefit the entire area and all 26,000 citizens of Uvalde County. The request of funding from the Department of Homeland Security for the renovation of this existing facility is not only critical but strategic, due to the proximity of two of the longest highways in the United States, both U.S. Highway 90 and

U.S. Highway 83. Amount requested: \$775,000
